

## COMPASS WASTES NO TIME IMPLEMENTING IDU

Compass Medical Waste Services (Pty) Ltd, is a privately owned organisation, and the largest healthcare risk waste containment and treatment (HCRW) company in South Africa. Compass has been in operation since 1998 and has a national footprint that extends to Gauteng, the North West, Mpumalanga, the Free State, the Northern Cape, Limpopo, the Eastern Cape and the Western Cape.

In 2018 Compass embarked on a new project to upgrade their financial budgeting and reporting process. After an extensive research process IDU was selected as the best tool for the job. Compass implemented the Standard Edition of the idu-Concept Budgeting & Reporting Modules.

*“We were very impressed with the smooth and efficient implementation process. All our deadlines were met and the service and support from IDU was very professional”  
Claude Moodley, Head of Finance.*

Compass found the training and seminars offered on the IDU modules to be extremely helpful to their staff members who were tasked with using the system.

*“The IDU Team provided excellent service and were always eager to help and assist”*

The initial time spent on generating monthly management reports was approximately 4 days, since using idu-Concept this has decreased to 3 hours!

Compass were also relieved that their existing formats were able to be incorporated into the new system using IDU.

*“ We will highly recommend the IDU system to any organisation that is looking to improve their budgeting and reporting process.”*

### About IDU

IDU makes budgeting, forecasting, performance management and reporting tools to simplify financial management. Our flagship product, idu-Concept, provides easy, effective budgeting and financial reporting for medium-sized to large businesses. idu-Concept integrates easily with ERP software, but unlike more cumbersome offerings, idu-Concept can be implemented quickly, requires little or no ongoing consulting fees and reduces budgeting cycles from months to weeks. Our company is owner-managed, and still led by its founding members.

### About Compass Medical Waste Services (Pty) Ltd

Compass Medical Waste Services (Pty) Ltd are market leaders in healthcare risk waste (HCRW) and employ over 500 staff members. Their head office is in KwaZulu-Natal and the company has a national footprint with three treatment facilities, two transit sites and a 76-strong fleet of vehicles.
